Attorney Definitely Eliminates
Himself as Gubernator al
Possibility

Attorney W. A. Kinney has eliminated himself from the list of Democratic

ei himtelf from the list of Democratic gubernatorial possibilities.

He has formally withdrawn from the law firm of Kinney, Prosser, Anderson and Marx, thus severing his active connection with Hawaiian interests, eithough he will not dispose of his large property holdings here, it is understood.

Mr. Kinney gave definite information of his intentions in a letter received on the last mail here by his law partners, it was authoritatively learned today, and there is no longer any uncertainty as to whether or not he is a possibility for governor. He is not in the light of his withdrawal from the firm and anouncement of his intention to spend the next year or two to ation to spend the next year or two

that members of the ways and means committee failed to attend a meeting said to be said

improperly endorsed for payment out ing a Republing in a re relied upon to favor the permanent improvement fund. He said it should be paid out of the chief if it should come to a vote on improperly endorsed for payment out of the permanent improvement fund. He said it should be paid out of the Ewa road district allowance or provided for by special resolution. A letter from the clerk to J. H. Travis, the Ewa road overseer, dated Oct. 15, was exhibited, in which Travis was informed that a caucus of supervisors had authorized him to buy a Ford runabout, price \$750, to be paid for out of the district's monthly appropriation, he to make such arrangements about payments with the Schuman Carriage Company as he saw fit.

Mr. Travis in the same letter was directed to pay the hospital expenses of one Charles Clark, suggesting that he get a receipt from Clark relinquishing all claims against the city and county for future "maybes."

TWO POWERS ARE MOBILIZE

Russia And Austria Are Assembling Their Troops For The Fray. England Grows Despondent At Outlook And Stock Markets Break. Turkish General Kills Himself In Dispair

[Special Star-Bulletin Cable]

LONDON. November 23.—Afterweeks of desperate work upon the part of the diplomats of the powers to evert an European war as a result of the outbreak in the Balkans, it now appears as though the English author-

avert an European war as a result of the outbreak in the Balkans, it now appears as though the English authorities have given up hope.

That the news reaching here thismorning, repeating the information that Russia and Austria are preparing for war, and are mobilizing their troops in haste and secretly, has been the final blow to the hopes of the Farcign Official here and in France, is the belief in well informed circles here this afternoon.

Confirmation of the reports which are semi-official in their character, comes in the form of dispatches an nouncing that the bourses in St. Petereburg and Vienna have shown the inevitable break that was to have been expected upon the receipt of such news. The market has fallen heavily in Vienna.

The censorship of foreign dispatches makes it extremely difficult to obtain any definite information of the intentions of the two great powers which seem to be drifting into war. Word, however, has reached here that Albania has declared its independence, and reports from Prague assert that 150,000 reservists have been summoned to active duty.

TURKISH GENERAL KILLS HIMSELF NEAR MONASTIR

BELGRADE, Servia, November 23.—The body of Tethi Pasha, the commander of the Turkish troops at Monastir, has been found dead in his apartments. It is believed that he committed suicide in despair of succeeding in righting himself in the eyes of his sovereign, after his disaster at Monastir.

ADRIANOPLE GARRISON IN A SORTIE

LONDON, November 23.—Dispatches from the front today announced that the garrison at Adrianople made a desperate sortic under cover of the dark last night, but were beaten back with heavy loss by the Allies. It is declared that word of the plans of the garrison leaked to the commander of the besiegers in time to head off the
